

## Engineering – CAD Development Services

### Corporate Profile & Business Model

Sonitek is a strategic partner for Canadian companies looking to outsource their architecture and engineering back office to India.

Through its established Canadian presence, and its presence in India, Sonitek emerges in the marketplace with a differentiated offer that provides Canadian Architectural and Engineering Clients the “peace of mind” and “trust” that their offshore outsourced back office is in good hands.

Sonitek’s business model is to act as a “facilitator” and enhance relationships between Sonitek’s delivery center in India and the Client. Sonitek will help to ensure that maximum performance and value are harnessed for the Client.

Sonitek bridges the cultural gap and the geographical distance between India and the Canadian corporations. Sonitek is fully committed to reduce its Clients’ operating costs by blending Canadian and Indian costs and providing valuable, real time account management of outsourced engineering processes, such as:

Architectural Drawing

Land Development Drawing

Structural, MEP Drawing

Product Development, etc

Sonitek’s Project Manager in Canada will interface with the Client and Sonitek’s delivery center to ensure that the Client’s interests are well represented. Sonitek’s Project Manager will demonstrate his experience in design and implementation of outsourced processes, and manage internal resources to support the Client. Sonitek will cooperate with its Clients to provide the best-suited method to migrate and implement the outsourced engineering processes at its delivery center in the areas of:

#### 1. Facility – Physical Office Space

Sonitek has a delivery center located strategically in West Delhi, linked to a subway system and in a working class neighborhood, where skilled labor at competitive price is available.

#### 2. Information Technology (IT)

Sonitek will provide state-of-the-art IT capabilities in telecommunication, internet bandwidth transfer, hardware and software.

#### 3. Human Resources support

Sonitek is linked to many headhunter companies in India that assist us in getting talents with specific skills required by the Client.

#### 4. Project Management

Sonitek has Project Managers based in Toronto who will work with the Client and our Indian delivery center to ensure a smooth migration of processes.
