It is mandatory to host with Sonitek because the Sonitek CMS is on a shared platform. The cost indicated is a onetime integration fee to make the website work with a Sonitek CMS which can be used as long as customer continues to host the website with sonitek.

* Applicable taxes are extra.

All Deposits are Non-Refundable

Payment Terms

- 50% Deposit of the order value to be accompanied with the order.
- Additional 25% of the order value upon approval of design layout and sitemap.
- Balance 25% of the order value to be paid upon completion prior to handoff of the site.

I undertake to finalize the design, sitemap and provide all the content within 30 days of placing the order. I will accept the handoff of the site as per approved design and sitemap with pages marked "Under Construction" if I do not provide the content as agreed. I will pay the balance order amount immediately thereafter. I understand that Sonitek will place the content within 3 months from date of handoff at no additional cost under the free maintenance period.

Package Details

1. **Number of pages:** Sonitek will create the number of pages indicated on the package selected. Additional charges apply for pages exceeding package limits.
2. **Sonitek Portfolio:** Sonitek will display at its discretion the customer's website on www.sonitek.ca.
3. **Logo provided by customer:** Additional charges apply for custom logo design.
4. **Images provided by customer:** All the images for the website, photo gallery and video gallery will be provided by the customer. Sonitek will only put the images into the website under desired location.
5. **Contact us form:** Sonitek will put Company name and contact info as TEXT ONLY on the website along with a standard format of contact us form having fields (Name, Phone, email, address, comment). This contact us form will send the submitted data to the email address supplied by customer.
6. **Live date and Time:** Standard display.
7. **Maintenance duration:** Sonitek offers three months of free maintenance via email support, from the date of website handoff to the customer as follows:
 - a. Revising / Correcting existing texts or images in the website.
 - b. Fixing any bug or correcting any technical mistake in the website.
 Maintenance period does not include:
 - a. Creating or adding new page(s).
 - b. Change in website template.
 - c. Change in flash animation.
 - d. Any other request
8. **Template store design:** Customer can mix and match to build a site from the Sonitek template store with maximum three revisions. Extra charges will be levied for additional revisions (see ORDER FORM – STATIC WEBSITE UPGRADES).
9. **Custom template design:** Sonitek will create static custom design from competitive URL's supplied by the customer with maximum 10 revisions. Extra charges will be levied for additional revisions and other features such as flash animation (see ORDER FORM – STATIC WEBSITE UPGRADES)
10. **Content:** To be supplied by customer in the form of HTML or Microsoft Word document. All text information should be in ready to use format and should be preformatted in terms of fonts and style. Images should already be placed inside the content as per the requirements. Custom content writing, content formatting and content proof reading services are available for additional charges.

11. **Sonitek CMS:** Content Management System allows customer to self manage the content of the website. Customer can manage the following:
 - a. Image(s) of website header can be changed.
 - b. Horizontal or vertical menu items/ tabs / links can be changed.
 - c. Left/Right columns can be managed in a columnar layout design.
 - d. Page content is manageable by a *WYSWYG* (What You See Is What You Get) user-friendly HTML editor.
 - e. Footer is manageable.
12. **Mini CMS:** Mini Content Management System allows customer to self manage the content of the website pages by using a *WYSWYG* HTML editor.
